To Whom It May Concern:

As of November 30, 2011, students from the High Road School of Prince George's County (High School) will be adopting Schoolhouse Pond in Upper Marlboro. The students will be led by Ms. Faulkner and will perform several clean-up projects each school year. These projects may include removing trash from pond and surrounding land, trimming trees and shrubs, maintaining other nature-related issues, etc. For each project, the students can earn Service Learning hours

The Park Ranger office will provide materials for each clean-up project, including gloves, garbage bags, litter sticks, etc. I (Brooke Westby) will be the main contact for the Park Ranger Office and I can be reached at 301-627-7755 or at brooke.westby@pgparks.com.

Sincerely,

Brooke Westby
